

JOIN THE EFFORT TO IMPROVE COMMUNITY HEALTH!

Join dozens of hospitals, health departments, and community organizations in shaping the future of community health! The West Cook YIMCA is hosting the Illinois Public Health Institute in conducting a focus group.

Discussions will be focused on community members' thoughts about what makes a healthy community and provide input about strategies that could be used to improve health in our community.

We are seeking diverse voices to ensure everyone's health needs are represented. This information will guide hospitals and health departments on where to allocate community benefit funding, support existing programs, and implement new health improvement strategies.

Your participation is crucial for improving health equity in Chicago and Suburban Cook County. Plus, all focus group participants will receive a \$25 Target gift card!

Registration is required!

WHEN:

Tuesday, October 22, 2024
6:00 pm – 7:00 pm
